

FOOD REDISTRIBUTION & WASTE REDUCTION PLATFORM FOR SURPLUS FROM EVENTS, RESTAURANTS, AND INSTITUTIONAL KITCHENS

PROBLEM COMPLEXITY:

Food wastage is high while many people still face hunger. Surplus food from events, restaurants, and institutional canteens is often discarded due to the lack of proper redistribution systems, logistical coordination, and safety validation.

OBJECTIVE:

- Reduce food wastage
- Redistribute surplus food to NGOs and shelters
- Ensure hygiene and food safety
- Enable quick pickup through volunteers

PROPOSED SOLUTION:

A digital platform connecting food donors, NGOs, and volunteers. Surplus food is uploaded by donors and matched with nearby NGOs for quick collection.

KEY FEATURES:

- Donor and NGO registration
- Real-time surplus food listing
- Location-based pickup coordination
- Volunteer dispatch system
- Food safety verification
- Impact tracking (Meals saved)

EXPECTED IMPACT:

- Reduce food wastage
- Support food-insecure communities
- Promote sustainable food management
